"Trainee Software Developer"

Job Profile : As part of Neebal Technologies group you will be working with a young and dynamic team in a start-up environment in multiple technologies spread across the third generation platform components. You will work closely with our clients and must demonstrate professional knowledge to ensure that the work products and deliverables are of highest calibre to ensure client satisfaction. You will also apply subject matter expertise to identify, develop, and implement new techniques to improve engagement productivity, mitigate risks, resolve issues and optimize cost saving and efficiencies for each client. You will be challenged frequently and will be required to conquer new road blocks everyday.

Key Responsibilities:

- Design and implement software platforms for our client
- Optimize currently deployed platforms and solutions to achieve higher degree of efficiency
- Experiment with exciting and innovative technologies
- Build internal systems that are used by Neebalites.
- Build automated systems for quality and performance testing.
